About

A Norwegian native, Smedsmo Gråen was born and raised in the Mother Country of Fjord Horses. Smedsmo's 5 year stallion station performance tests put him in the top 10-20% of all Fjord stallions tested in Norway. He received three perfect 10's. During any given year, 85% of the stallions shown don't make it to the tests at all. Smedsmo Gråen is one of the elite boys of the bunch and one of the greatest Fjord stallions of all time. He will, without a doubt, continue to put some outstanding foals on the ground. We are very honored to have Smedsmo Gråen here at Sunnyside Farms and will do our very best to see that he enters his golden years with grace and in excellent health and fertility.

Smedsmo is a shadow of the past and a reflection of perfection in Fjord breeding for the future. While his progeny numbers are above 140 world wide, he can still continue to improve Fjord stock. He will improve temperament, conformation and movement to any breeding program. We will breed select and limited mares both in Montana during the summer and Arizona during the winter months. Please inquire for pricing, a contract and booking.
