Berthoud, CO
United States 80513

NFHR Young Stock Evaluation Results 2009

Sir Xilef was one of only two living direct sons of Felix in the United States. Xilef was an impressive stallion that stood 14hh with 8 inch cannon bone. Evaluated as a two year-old, he received an 8.25 for his head, 8.5 for his neck, 9 for his body, 8.5 for legs, 8.75 for his trot, and 9.25 Overall. Though he had a kind temperament, Xilef was not for the faint of heart as he was perhaps one of the most energetic, athletic, forward thinking Fjords on the continent. Looking for sport potential in a stallion? Look no further! Rated First Premium in Norway in 2005, Felix was an influential sire and grand-sire of notable 1st and 2nd premium offspring such as Berkilid Prinsessa, Knapstadprinsen, Merinas Emil and Terne Prins. Xilef's dam, Udine, evaluated well in conformation as well as performance. Her pedigree includes the great movement of Myrstein and sport potential of Rei Halsnaes. Xilef's semen was collected and tested with very good results for frozen semen (post-thaw results were above commercial acceptable quality). Contact Starfire Farm for breeding. Available via frozen semen only.

Sire - Felix

Dam - Udine
